

A scatter plot showing 100 data points distributed across a 100x100 coordinate system. The x-axis is labeled 'X' and the y-axis is labeled 'Y', both ranging from 0 to 100. A color bar on the right side of the plot indicates the value of each point, ranging from 0 to 9. The color bar has a gradient: 0 is white, 1 is red, 2 is white, 3 is dark blue, 4 is yellow, 5 is white, 6 is dark green, 7 is white, 8 is purple, and 9 is orange. The data points are scattered throughout the plot area, with some clusters and many empty spaces.

Concentration of populations
